

# ADVANTAGE

## LITES & LOUVERS

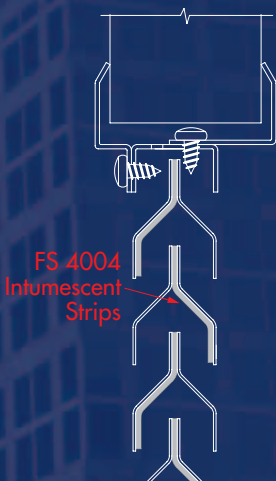

## We've Made Great Strides to Gain Advantage for You

Rooted in its origins as part of the Leslie Locke Building Products company, Advantage Lites & Louvers (A-LL) has spent the past year growing into its new responsibilities as Zero International's newest company. Measuring up to Zero's quality standards isn't easy! After successfully meeting the challenges along the way, A-LL is now all it should be. And there's no better time to check out your new *ADVANTAGE!*

- Great new location in Wallace, North Carolina, and room to keep growing in our 25,000 sq. ft. facility. A state-of-the-art powder-coating system went online in 2005, leading off a series of planned major equipment upgrades.
- Prompt shipping with 48-hour turnaround on in-stock products and custom orders within two weeks. We're fully stocked in both North Carolina and our New York headquarters.

- Innovative products such as our new patent-pending Advantage Intumescent AIL 200 90-minute fire-rated door louver — the intelligent alternative to conventional fusible-link fire louvers. We also offer a wide range of standard solutions for every door louver and vision lite application. All priced to your best advantage!

If you don't already know the new A-LL, the time is right. Take *ADVANTAGE* of us soon.
